

Privacy Statement

Awecomm Technologies L.L.C. has created this privacy statement in order to demonstrate our firm commitment to privacy. If you have a request that needs immediate attention, you can also contact our Webmaster at webmaster@awecomm.com or 248.404-9910.

Respect

Awecomm respects the privacy of users on the Internet and has developed this privacy policy to protect user privacy on its web sites. The purpose of this policy is to explain the types of information Awecomm obtains about users of Awecomm web sites, how the information is obtained, how it is used, how it may be disclosed to others, and how users can restrict its use or disclosure.

Personally Identifiable Information

The only personally identifiable information Awecomm obtains about individual users through our web sites is information supplied voluntarily by the user. Users interacting with our sites may provide Awecomm with name, address, telephone number, e-mail address, domain name or URL or other personally identifiable information that Awecomm may use for its own business purposes. Awecomm may share such information with its partners only if necessary to advance Awecomm business purposes, including the purpose of contacting users about products and services, which may be of specific interest to them. Of course, users may visit our web sites without telling us who they are or revealing any personally identifiable information about themselves.

Non-Personally Identifiable Information

Awecomm does collect some non-personally identifiable generic information about our users as a means of measuring the effectiveness of our web sites. Awecomm servers identify certain user information in the normal course of operation, but such information does not reveal a user's personal identity. We collect this information only in the aggregate and use it to evaluate and improve our web sites and to provide targeted information that may be of interest to users of our web sites. The following are examples of non-personally identifiable generic information.

IP Addresses

An IP address is a number that is automatically assigned to a user's computer whenever that user is using the World Wide Web. Web sites servers can automatically identify individual computers by their IP address. Awecomm collects IP addresses for the purposes of system administration and to report aggregate information. Awecomm does not link IP addresses to any personally identifiable information.

Security

This site has security measures in place to protect the loss, misuse and alteration of the information under our control. Information submitted through forms is stored in a secure database and used only by Awecomm. Awecomm assumes no responsibility for the privacy of sites linked to and from www.awecomm.com.

Cookies

Cookies are pieces of information that are used for record-keeping purposes. Cookies allow Awecomm to save certain information about a user, such as a password or individual preferences, in order to facilitate and enhance the user's future activities on Awecomm web sites. Awecomm will not use cookies to retrieve information from a user's computer that was not originally sent in a cookie.

Computer Settings

Settings, technical and other information from your computer, such as your operating system, browser version, connectivity, various communication parameters and other information related to the operation and interaction of Awecomm web sites may be collected by Awecomm. Except as otherwise provided in this policy, Awecomm will use such information solely in order to provide technically appropriate formatting of information provided by Awecomm and access to Awecomm web sites. The collection of this information will not include any personally identifiable information about you or any individual user.

Disclosure Pursuant to Legal Process

Awecomm shall, pursuant to applicable law, regulation or legal process, such as a search warrant, subpoena or court order, allow access to all available and relevant information in order to comply with such process and protect Awecomm's rights and property. Awecomm may also allow access to this information in special emergencies where physical safety is at risk.

Commitment

Awecomm is committed to protecting user privacy on all Awecomm web sites and expects the same from our partners, co-sponsors, and suppliers.

Boundaries

Awecomm is not responsible for the content or the privacy practices of non-Awecomm web sites, including web sites reached through a link on a Awecomm web site. Other web sites may have different privacy policies, or no policy. Users should review the privacy policies of any web sites before providing personal information.

Should Awecomm modify its practices regarding the collection or use of information obtained from users in the future, this privacy policy will be amended to reflect such modifications.

Choice/Opt-Out

Awecomm gives users the option of removing their information from our database to not receive future communications or to no longer receive our service. Send e-mail to webmaster@awecomm.com

Corrections / Updates

Awecomm gives users the option for changing and modifying information previously provided. Send e-mail to webmaster@awecomm.com.

If you have any questions about this privacy statement, the practices of this site, or your dealings with this web site, you can contact:
